

Finite Earth Movement & Us

Script for Spreading Finite Living Pledge

**Inviting friends, family members and relatives, and others to become
FEM'Us**

1. I've taken a simple pledge

Not buying new clothes for one year. It's part of the Finite Earth Movement.

2. The idea is simple

We are already consuming resources of 1.8 Earths, but we only have one. This over-consumption is the root cause of air, water, soil pollution, global warming and climate change.

3. We ourselves and how children will pay the price of climate change

It is already affecting our health, our economy, food and water supply. Reducing consumption from 1.8 Earth to 1 Earth is a simple solution. Living within Earth's limits is called Finite Living.

4. We are starting finite living global campaign with clothes

Clothes are something we already have enough of. This is an easy way to start living within limits without affecting daily life.

5. By not buying clothes for 1 year

A person can save 20-25,000 liters of water, 40-50 kg of CO₂ and 4-5 kg of chemicals. It doesn't cost anything, in fact, it saves money. And it's completely doable if we just become a little mindful.

6. It doesn't cost anything

In fact, it saves money. And it's completely doable if we just become a little mindful.

7. I've taken this step

And I'm trying to bring a few more people into it. Would you like to try this for one year?

8. If yes

If yes, you can take the pledge here with my link: [Share your FEM'Us referral link].

9. Multiplication

Those who are taking FEM'Us Pledge, Ask them to invite at least 2 others, with their code.
